

Hello!

Posted by jeff - 2010/05/31 14:30

Hello everyone.

I am new here but not new to Tecumseh. I was hoping that I could find more out about the company my father worked at. We were always in the area fishing on weekends as a child. As I can remember he worked on the 8-track cassette, fire alarms and other things. (electronic) I thought it was tecumseh products? They went bankrupt in the late 70's (I believe) My father died a few years after retirement. His name was Richard Krall.

Thanks

Jeff

Hi Jeff,

The place where your dad worked was likely Tecumseh Products. They are still very much in business and still have their Engineering here in Tecumseh. Their manufacturing is no longer here and their corporate headquarters moved to Pittsfield Twp. (Ann Arbor) a few years ago.

Their website is www.tecumseh.com.

Best,
Paula
