

BUILDING PERMIT PROCESS

(Building, Mechanical, Electrical and Plumbing)

CITY OF TECUMSEH

Step 1

- After City Planner approves use (if necessary), building permit applications are submitted requesting approval to proceed with renovations to interior/exterior structure.

Step 2

- Inspector reviews application and completes a project plan review. Any requested revisions/comments are sent to permit applicant.

Step 3

- Revised plans are modified (per code) and resubmitted to Inspector.

Step 4

- Inspector reviews revised plans; if in compliance inspector approves, initials and dates plans and/or application.

Step 5

- Upon payment of required fee, permit is issued by the Building & Planning Department.

Step 6

- Contractor contacts Building & Planning Department to schedule required inspections; rough in and final electrical, mechanical, plumbing and building inspections are required.

Step 7

- Required inspections are conducted by Building Inspector(s). When the project passes all final inspections, a Certificate of Occupancy is issued.

Step 8

- If the project fails to pass inspection due to any code non-compliance, the non-compliance must be corrected and re-inspection then requested.

Step 9

- Re inspection of non-compliant issues is conducted. When project passes re-inspection, a final Certificate of Occupancy is issued.
