

January 17, 2011

The Board of Trustees
City of Tecumseh Employees Retirement System
Tecumseh, Michigan

Dear Board Members:

The purpose of the annual actuarial valuation of the City of Tecumseh Employees Retirement System as of June 30, 2011 is to:

- Compute the liabilities associated with benefits likely to be paid on behalf of current retired and active members of the Retirement System,
- Compare accrued assets with accrued liabilities to assess the funded condition of the Retirement System, and
- Compute the City's recommended contribution rate for the Fiscal Year beginning July 1, 2012.

This valuation has been conducted in accordance with generally accepted actuarial principles and practices. Data concerning active members, retirees, beneficiaries and assets was provided by the City. This data has been reviewed for reasonableness, but no attempt has been made to audit such information. The valuation was based on the provisions of the Retirement System as of June 30, 2011. The actuarial assumptions used in this valuation represent reasonable expectations of future experience under the System. This valuation has been prepared under the supervision of a Member of the American Academy of Actuaries who meets the qualification standards of the American Academy of Actuaries to render the actuarial opinions contained herein.

Respectfully submitted,

Denise M. Jones
Senior Consultant

Sandra W. Rodwan
Member, American Academy of Actuaries

Section One:
Valuation Summary

Purpose of Valuation

The purpose of the annual actuarial valuation of the City of Tecumseh Employees Retirement System as of June 30, 2011 is to:

- ❖ Compute the liabilities associated with benefits likely to be paid on behalf of current retired and active members of the Retirement System,
- ❖ Compare accrued assets with accrued liabilities to assess the funded condition of the Retirement System, and
- ❖ Compute the City's recommended contribution rate for the Fiscal Year beginning July 1, 2012.

Liabilities and Funded Condition of Retirement System

Accrued liabilities of the Retirement System as of June 30, 2011 were computed to be \$20,453,093 for pensions and \$1,233,156 for Health Insurance. The funding value of accrued assets was \$16,958,748 for pensions and \$968,683 for Health Insurance. The ratio of the funding value of accrued assets to accrued liabilities was 82.9% for pensions and 78.6% for Health Insurance.

Funding Value of Assets

A smoothed market value of assets was used for the June 30, 2011 valuation. This method, which spreads the difference between actual and expected investment return over seven years, is a change from four years from the method used for last year's valuation.

Computed City's Contribution Rate

The City's normal cost contribution rate was computed to be 14.06% for pensions and 1.13% for Health Insurance.

The City's total contribution rate was computed to be 22.75% for pensions and 1.79% for Health Insurance. This includes an amortization payment of 8.69% for pensions and 0.66% for Health Insurance.

Retirement System Experience

The aggregate experience of the Retirement System was more favorable than assumed during the year ended June 30, 2011. The primary source of the favorable experience was salary increases which were less than assumed.

Assumption and Method Changes

Included in this valuation were the following assumption and method changes adopted by the Board of Trustees:

- The base portion of the salary scale assumption was changed to 3.75% from 4.75%.
- The period for smoothing investment gains and losses was changed to 7 years from 5 years.

Benefit Provision Changes

There were no benefit provision changes in this valuation. Effective July 1, 2011, new hires will be covered under a new hybrid plan for pensions and will not be entitled to retiree health coverage.

Participant Data

Active Members	<u>6/30/2011</u>		<u>6/30/2010</u>	
	Number	Payroll	Number	Payroll
General	27	\$1,447,875	34	\$1,754,109
Police/Fire	<u>17</u>	<u>866,876</u>	<u>18</u>	<u>853,564</u>
Total Active Members	44	\$2,314,751	52	\$2,607,673
Vested Inactives	6	\$59,887	3	\$37,217
Retirees and Survivors	38	\$934,922	33	\$801,794

Financial Data

	<u>06/30/2011</u>	<u>06/30/2010</u>
Funding Value of Assets	\$17,927,431	\$16,782,939
Market Value of Assets	17,151,079	14,813,988

Conclusion

The City is funding Retirement System benefits as they accrue in accordance with a sound level percent of payroll funding objective.

Section Two:

***Actuarial Calculations –
Funding***

Computed Contribution Rates for The Year Beginning July 1, 2012

The contribution rates shown below are expressed as percents of active member payroll.

The normal cost can be viewed as the long-term on-going cost of the Retirement System. The unfunded actuarial accrued liability was amortized over 27 years. This is a 1 year decrease from the 28 year period used last year.

Contribution Recommendation:

	<u>Percents of Payroll</u>		
	<u>Pension</u>	<u>Health Insurance</u>	<u>Totals</u>
Normal Cost			
Regular Retirement	16.20%	0.79%	16.99%
Pre-retirement Death	0.36	0.02	0.38
Disability	0.00	0.00	0.00
Withdrawal	<u>3.38</u>	<u>0.32</u>	<u>3.70</u>
Total Normal Cost	19.94%	1.13	21.07
Unfunded Actuarial Accrued Liability	8.69	0.66	9.35
Total Computed Contribution	28.63	1.79	30.42
Member Portion	5.88	0.00	5.88
City's Net Contribution Rate	22.75%	1.79%	24.54%
City's Dollar Contribution	\$566,842	\$47,882	\$614,724

Unfunded Actuarial Accrued Liability

	<u>June 30, 2011</u>		<u>June 30, 2010</u>	
	<u>Pensions</u>	<u>Health Ins.</u>	<u>Pensions</u>	<u>Health Ins.</u>
Actuarial Accrued Liabilities	\$20,453,093	\$1,233,156	\$19,151,492	\$1,114,486
Assets Allocated to Funding	<u>16,958,748</u>	<u>968,683</u>	<u>16,278,508</u>	<u>504,431</u>
Unfunded Actuarial Accrued Liabilities	\$3,494,345	\$264,473	\$2,872,984	\$610,055

Total Actuarial Present Value of Present and Expected Future Resources	\$24,995,792	\$1,493,190	\$26,488,982

Comments and Conclusion

Comment 1: The overall experience of the Retirement System was more favorable than assumed during the year ended June 30, 2011. The primary source of the favorable experience was salary increases which were less than assumed.

Comment 2: The allocation of the funding value of assets between pensions and health is based on the reported allocation of the market value.

Comment 3: The Governmental Accounting Standards Board (GASB) has issued Statements 43 and 45 concerning financial reporting for “Other Post-Employment Benefits” (OPEB), which are non-pension benefits including retiree health benefits. Statement 43 applies to OPEB plans and Statement 45 applies to the plan sponsor.

In Section 6 of this Report, Accounting Disclosures, we have included information for GASB Statements 43 and 45. We have assumed for this purpose that assets considered in determining the unfunded actuarial accrued liability for OPEB meet the GASB Statements 43 and 45 requirements as follows: a) irrevocably held in a trust or equivalent arrangement, b) dedicated to providing benefits to retirees and their beneficiaries in accordance with the terms of the plan, and c) legally protected from creditors of the employer or the plan.

Comment 4: The current plan is closed to new hires after June 30, 2011. Employees hired on or after July 1, 2011 will not be entitled to retiree health coverage and will be placed into a hybrid pension plan. In order to compute a contribution rate for the Defined Benefit component of the hybrid plan applicable for new hires after June 30, 2011, we performed an actuarial valuation based on the current June 30, 2011 active employees but based on the new benefits reported to us. The normal cost contribution rate was computed to be 8.69% of the new hire payroll. Note that the actual contribution rate for the post-July 1, 2011 hires in the future will be based on their actual demographic characteristics, and may differ from the normal cost computed based on the current pre-July 1, 2011 group.

Conclusion: The City is funding Retirement System benefits as they accrue in accordance with a sound level percent of payroll funding objective.

Section Three:

***Retirement System
Benefit Provisions***

Benefit Provision Summary

Regular Retirement

Eligibility:

Non-Union and Operating Engineers: 30 years of service regardless of age or age 55 with 5 or more years of service.

Police: 25 years of service regardless of age or age 55 with 5 or more years of service.

Annual Benefit:

Non-Union and Operating Engineers: Straight life pension equals 2.5% of 3 year final average salary (FAS) times total service to a maximum of 80%.

Police: Straight life pension equals 2.75% of 3 year final average salary times total service to a maximum of 75%.

Deferred Retirement

Eligibility:

5 or more years of service. Benefit begins upon attainment of age 55. Accumulated contributions remain in System.

Annual Benefit:

Computed as service retirement but based upon service, FAS at termination.

Duty Disability Retirement

Eligibility:

No age or service requirements. Must be eligible for worker's compensation benefits.

Annual Benefit:

Computed as a regular retirement with a minimum benefit of 16 2/3% of FAS.

Non-Duty Disability

Eligibility:

5 years of service. Disability must be approved by a medical committee.

Annual Benefit:

Computed as a regular retirement with a minimum benefit of 16 2/3% of FAS.

Duty Death in Service Survivors Pension

Eligibility:

25 years of service or age 55 with 5 years of service.

Annual Benefit:

Computed as a regular retirement but actuarially reduced in accordance with a 100% joint and survivor benefit.

Member Contributions

Non-Union and Operating Engineers: 5.5% of pay

Police: 6.73% of pay.

Post-Retirement Increases

Annual Benefit:

Each July 1, starting July 1, 1994, all pensioners who have been receiving pension benefits for at least one year will receive an increase. The increase will be equal to the increase in the CPI (but not more than 2.8%) multiplied by the member's current benefit.

Optional Benefits

Straight Life: Member receives an amount calculated in accordance with the formula for life. Benefits terminate upon member's death.

Option A: 100% joint and survivor benefit. Member receives an amount for his/her life which is calculated as a straight life benefit then actuarially reduced. If the member predeceases the named beneficiary, then the named beneficiary receives the same amount until his/he death. Benefits terminate when both the member and the named beneficiary have died.

Option B: 50% joint and survivor benefit. Member receives an amount for his/her life which is calculated as a straight life benefit then actuarially reduced. If the member predeceases the named beneficiary, then the named beneficiary receives 50% of what the member was receiving until his/he death. Benefits terminate when both the member and the named beneficiary have died.

Post-Retirement Health Benefits

Eligibility: 5 or more years of service and age 55 for all members of the City of Tecumseh Employees Retirement System who have left active service, their eligible spouses and eligible surviving spouses.

An eligible spouse is the current spouse of the member who was married to the member on the date of retirement. An eligible surviving spouse is the person who was married to the member on both the date of retirement and the date of the member's death.

Annual Benefit: The lower of

- 1) a percentage of the health insurance premiums for the appropriate fiscal year (the percentage paid is based on accrued service at the time of retirement and is 5% per year of service up to 100%), or
- 2) the annual maximum for the appropriate fiscal year.

The annual maximum is increased annually each July 1 by the percentage increase in the CPI (but not more than 2.5%). For the 2010/2011 fiscal year, the annual maximum is \$1,782.90.

Retired members who waive post-retirement health benefits in any given year, retain the right to begin receiving benefits in future years.

Section Four:

***Actuarial Assumptions
And Methods***

Actuarial Assumptions

Economic Assumptions

- (i) **Interest Rate** 7.5% (net of expenses)

- (ii) **Salary Increases**
 - Across-the-Board 3.75%
 - Merit and Longevity Service-related rates

Sample Annual Rates of Salary Increase

Service	Base	Promotion, Longevity	Total
1-5	3.75%	4.20%	7.95%
6-10	3.75	2.50	6.25
11-15	3.75	2.00	5.75
20 and Over	3.75	0.80	4.55

Demographic Assumptions

(i) Mortality

1971 Group Annuity Mortality Table projected to 2000, set back 0 years for males and 6 years for females.

Sample Ages	Value of \$1 Monthly for Life		Future Life Expectancy (Years)	
	Men	Women	Men	Women
55	\$164	\$183	24.02	29.21
60	146	168	19.84	24.86
65	127	150	13.00	20.74
70	107	131	12.73	16.86
75	88	111	9.86	13.37
80	70	91	7.44	10.40

(ii) Disability

Sample Ages	Percent Becoming Disabled Within Next Year	
	Men	Women
20	0.00%	0.00%
25	0.00	0.00
30	0.00	0.00
35	0.00	0.00
40	0.00	0.00
45	0.00	0.00
50	0.00	0.00
55	0.00	0.00
60	0.00	0.00
65	0.00	0.00

(iii) Termination of Employment

Service related rates for first 5 years of employment. Age related rates after first 5 years of employment

Sample Ages	Years of Service	Members Separating Within the Year		
		General Members	Police	Fire
ALL	0	15.00%	15.00%	15.00%
	1	17.00	17.00	17.00
	2	17.00	17.00	17.00
	3	15.00	15.00	15.00
	4	10.00	10.00	10.00
25	5 & Over	3.50	9.60	3.50
30		3.50	8.35	3.50
35		3.08	4.98	3.08
40		2.80	0.98	2.80
45		2.59	0.00	2.59
50		2.24	0.00	2.24
55		0.00	0.00	0.00
60		0.00	0.00	0.00

(iv) Retirement Rates

**Active Members Retiring within Year
Following Attainment of Indicated Retirement Age**

Age-related rates:

Age Retiring	Percent Retiring		
	General	Police	Fire
55	20%	35%	20%
56	15	25	15
57	5	20	5
58	5	15	5
59	5	15	5
60	5	15	5
61	5	15	5
62	5	25	5
63	20	100	20
64	30	100	30
65	100	100	100

Service-related rates:

Service	Percent Retiring		
	General	Police	Fire
25-29	--%	15%	--%
30	30	15	30
31	30	15	30
32-40	15	15	15

An active member is eligible for retirement after attaining age 55 with 5 or more years of service or after attaining 30 years of service (25 years for Police).

Actuarial Method Used for the Valuation

Normal Cost. Normal cost and the allocation of actuarial present values between service rendered before and after the valuation date were determined using an individual entry-age actuarial cost method having the following characteristics:

- ❖ The annual normal costs for each individual active member, payable from date of hire to date of retirement, are sufficient to accumulate the value of the member's benefit at the time of retirement;
- ❖ Each annual normal cost is a constant percentage of the member's year-by-year projected covered pay.

Financing of Unfunded Actuarial Accrued Liability. Unfunded actuarial accrued liability was amortized as a level percent of payroll over 27 years, a decrease of 1 year from the 28 year period used for the June 30, 2010 annual valuation.

Active member payroll was assumed to increase 3.75% a year for the purpose of determining the level percent of payroll amortization payment.

Section Five:
Valuation Data

Summary of Asset Information Submitted for the Valuation

Revenues and Expenses for the Year Ended June 30, 2011

a. Revenues

GASB Statements 25, 43 and 45 Supplementary Information

The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information as of the latest actuarial valuation follows:

Valuation Date:	June 30, 2011
Actuarial Cost Method:	Individual Entry Age
Amortization method:	Level percent of payroll, closed
Remaining amortization period for credit:	27 years
Asset valuation method:	7-year smoothed market value
Actuarial assumptions:	
Investment rate of return	7.50%
Projected salary increases*	3.75%-7.95%
* Includes inflation at	3.75%

Membership data as of June 30, 2011 is indicated in Section Five of this report.
